St Kilda, VIC, 3182  
AUSTRALIA

To Whom It May Concern,

### **Letter of Assessment**

From 3-Feb-2022 to 22-Feb-2022, pursuant to our agreement with Red Guava Pty Ltd, elttam conducted a security assessment of the Cliniko application and infrastructure.

The engagement commenced with a detailed briefing and walk-through by Red Guava Pty Ltd that showcased the functionality of the product, recent developments, and key areas of concern. The assessment was performed by a Senior Security Consultant over the assessment period, which followed a remote breach adversarial simulation methodology for the internet-facing infrastructure, and a white-box application penetration testing methodology for the Cliniko application and API.

The results of the assessment demonstrated reasonable security practices across both infrastructure and application security, with a couple of areas requiring attention and improvement. The engagement was wrapped up with a close-down meeting and a report was issued to Red Guava Pty Ltd.

elttam is an independent security company providing research-driven security assessment services to the Fortune 500, global financial institutions, leading technology companies, Australian Federal Government, and up and coming technology start-ups. We combine pragmatism and deep technical insight to help our customers secure their most important assets.

Sincerely,

Matt Jones  
Director
